GAME NAME: Quest

GAME TYPE: Slot

ABOUT ME: For centuries legends have foretold of a great fortune, lying deep in a castle dungeon and guarded by a fearsome dragon. Time has waited for a hero brave enough to land the 3 or more dragon eye scatter symbols and attain the free spins, where the beast sits atop his pile of treasure!

Using the 4 elements our hero can call upon great powers to aid him in this Quest:

The colossal power of earth, to turn the reels into giant symbols!

The shocking power of electricity to generate symbol upgrades!

The searing power of fire to ignite random wilds!

The rushing power of water to flood whole reels and freeze them into wilds!

In the base game, a lucky wave of the elemental staff, can grant one random power - but in the bonus the magic spell book may grant him up to all four powers simultaneously, where he certainly shall find himself able to fill the reels, and his pockets with treasure!

- SPECIAL FEATURES:**
- Random trigger awards elemental powers in basegame, which includes wilds and symbol upgrades
 - 3 or more scatters awards up to 12 free spins
 - Up to 4 elements active on every spin in free spins
 - A visually packed game with a long play time
